Welcome Messages from the President of TASP

On behalf of the Thai Association for the Study of Pain (TASP), I am pleased to invite you to participate in the 28th Annual Scientific Meeting of TASP. The meeting will be held at the Sheraton Hua Hin Hotel in Prachuap Khiri Khan, Thailand from 3 to 5 May 2017.

The theme of the meeting is "Transformation: from knowledge to clinical skills in pain medicine". This will be a three-day meeting with two honorary lectures, plenary and special lectures, symposiums and regional-analgesia workshops which will broadly cover our pain field and provide insights into clinical research, therapeutic interventions and non-pharmacological treatment. It is great pleasure to have Professor Allen Finley and Professor Manoj K Karmakar as our honorary speakers focusing on pain in children and regional analgesia. Also the 2017 IASP-WHO global year against pain after surgery will be promoted.

The working languages of the meeting will be English and Thai. We welcome international delegates to join our scientific meeting. It will be a good opportunity to exchange ideas and experiences in pain fields and to help strengthening the networks among participants to the benefit of a better pain knowledge for all.

I look forward to having you to take part and benefit from attending this meeting in Hua Hin!

Supranee Niruthisard, MD

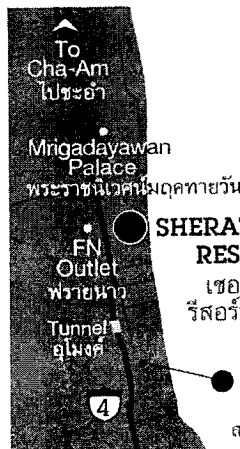

President, Thai Association for the Study of Pain
