บันทึกข้อความ

ฝ่ายออร์โธปิดิกส์ วันที่ 10 เมษายน 2560

เรื่อง ขออนุมัติไปเสนอผลงานวิชาการและเข้าร่วมประชุมวิชาการ ณ ต่างประเทศ
เรียน หัวหน้าฝ่ายออร์โธปิดิกส์
สิ่งที่ส่งมาด้วย จดหมายเชิญประชุมและโปรแกรมการประชุม

ด้วย กระผม นายแพทย์ ภพ เหลืองจามิกร ตำแหน่ง นายแพทย์ ระดับ 5 ฝ่ายออร์โธปิดิกส์
โรงพยาบาลจุฬาลงกรณ์ ได้รับการตอบรับให้ร่วมเสนอผลงานทางวิชาการเรื่อง Anatomical difference
between hand and foot web-space reconstruction ในรูปแบบ Oral Presentation ในการประชุม
วิชาการ FESSH - EFSHT Scientific Committeess ในระหว่างวันที่ 21-24 มิถุนายน 2560 ณ เมือง
Budapest ประเทศ Hungary ตามรายละเอียดจดหมายตอบที่รับที่ได้แนบมาพร้อมกับบันทึกนี้แล้ว

ในการนี้ กระผมใคร่ขออนุมัติไปเสนอผลงานทางวิชาการและเข้าร่วมประชุมวิชาการดังกล่าว โดยไม่
ถือเป็นวันลา และจะเป็นผู้รับผิดชอบค่าใช้จ่ายเองทั้งสิ้น โดยกำหนดออกเดินทางในวันที่ 18 มิถุนายน 2560
เวลา 9.20 น. เดินทางกลับในวันที่ 25 มิถุนายน 2560 เวลา 18.40 น. และจะเข้ากลับมาปฏิบัติงานวันที่
25 มิถุนายน 2560

จึงเรียนมาเพื่อโปรดพิจารณาอนุมัติและดำเนินการต่อไปด้วย จักเป็นพระคุณยิ่ง

(นายแพทย์ ภพ เหลืองจามิกร)

ที่ อธ.151/2560

เรียน ผู้อำนวยการโรงพยาบาลจุฬาลงกรณ์

เพื่อพิจารณาอนุมัติและโปรดดำเนินการต่อไปด้วย

เรื่องส่งออก วันที่	11 / 4 / 60

Dear Submitter,

Thank you for submitting an abstract that has been evaluated by FESSH - EFSHT Scientific Committees. This is to inform you that the reviewers have selected your abstract as an **ORAL PRESENTATION**.

Presentation date and time

Your presentation schedule (date and time) will be announced on the congress website by **28 February 2017**. Please wait with flight and hotel bookings until you learn your presentation time as changing your presentation time will not be possible.

Author registration

Your presentation will be included in the scientific program only if the presenter of the abstract will register at the early registration deadline. Presenters without registration will be removed from the

final scientific program. All presenters are responsible for their own congress registration fees and expenses. Registration information is available at: www.eurohand2017.com.

Early registration deadline: **15 March 2017**.

Withdrawal

Please send a short message to us in case you want to withdraw your presentation.

Looking forward to meeting you in Budapest, Hungary

About

Dear Friends, Dear Colleagues !

Welcome to EuroHand 2017, welcome to Budapest!

In June 2017 Budapest will not only be the center of Europe but also the Capital of hand surgery and hand therapy. An outstanding scientific program including all topics of hand surgery focusing on the available evidence based data will be an excellent opportunity to refresh your knowledge. Planning a never seen large number of free papers will enhance the possibility to hand surgeons of all generations to present their cases, their results and share their experience. Joint sessions with hand therapists can build an even closer relation between surgeons and therapists. Accommodation and catering facilities of all rates will make participation affordable for everyone.

The many years of experience of the organizers guarantees a successful, unique and memorable event.

Needless to say that beside a high level scientific program the well known Hungarian hospitality, gastronomy and cultural life make your presence a must

in the capital of Hungary.

Looking forward to seeing you in Budapest,

Zsolt Szabó

Dear Colleagues and Friends,

On behalf of the European Federation for Societies of Hand Therapy and both the organizing and scientific committees of the XII EFSHT Congress I am honored to welcome you to Budapest, Hungary.

This triennial FESSH-EFSHT combined congress is organized in collaboration with the European Federation for Societies of Hand Surgery and The Hungarian Society of Hand Surgery. The therapists' program is divided into two parts – a separate therapists' program and a combined program with FESSH. The therapists' program consists of keynote lectures, focus sessions and workshops to provide you with both theoretical knowledge and clinical perspectives in several topics. The main theme of the FESSH-EFSHT combined sessions will be Evidence Based hand surgery and hand therapy, where clinically relevant topics will be viewed and discussed from the current evidence point of view.

You will have the opportunity to choose your preferred topics from the concurrent programs, and with the chance of mixing both lectures and workshops, this will provide an interesting and versatile entity for therapists from different backgrounds and work settings. The extended FESSH-EFSHT combined sessions will provide the participants with interesting scientific lectures and the opportunity to deepen the collaboration and understanding between surgeons and therapists.

In addition to the compact scientific program, the social program will allow you to meet and spend time with colleagues and see beautiful Budapest. Budapest offers you a great location to combine the scientific event to culture, history, sights and urban life.

I offer you a warm welcome to the Eurohand 2017 Congress and look forward to seeing you in Budapest!

Abstract Submission

Main topic

Evidence based data in hand surgery and therapy

Sub topics

Carpal instabilities
 CMC osteo arthritis
 Compression neuropathies
 Congenital hand
 Distal radius
 Dupuytren disease
 Extensor tendons
 Fingertip reconstruction
 Flexor tendons
 Future in hand surgery
 Hand fractures
 Injections
 Nerves
 Outcomes measures
 Pain (CRPS)
 Scaphoid
 Soft tissue reconstruction
 Spastic hand
 Tetraplegia
 Therapist program

Deadlines

- **Extended abstract submission:** 11 December 2016 - midnight CET
- **Acceptance notification:** 15 February 2017 - extended!

How to submit

1. Apply for password

For submitting an abstract, first you must apply for a password. You can do this by clicking the abstract submission button below and selecting "password request" in the upcoming window.

2. Get password by e-mail

The system automatically sends you a password by e-mail when you finished previous step. Receiving the password into your mailbox depends on the traffic load of the internet, and it may be a longer delay. Should your password not arrive in 3 hours send a short note to the email below instead of making a double registration.

3. Log-in to the system

Please take note of your login name and password which are case sensitive. You need your personal password to submit or edit abstract.

4. Ask for help

Should you need help on how to use the abstract system please send a message to casm@asszisztencia.hu.

Abstract submission rules

- Abstracts must be submitted using the online submission system available through the link provided
- Abstracts must be submitted in English
- Only plain text is allowed: do not use tables, tabs, listings, any other formatting (bold, colours, etc).
- You must choose one of the following two types of abstracts:
 - **Oral presentation:** traditional podium presentation, duration of the talk will be specified after revision by the scientific committee.
 - **E-poster presentation:** e-poster session will be organized during the congress, posters can be presented on computer stations.
- All accepted oral abstracts will be published in the Journal of Hand Surgery (JHS) European volume (Attention: posters will not be published in JHS!)
- Maximum word count of the abstract is 500 words
- The abstract needs to be structured as follows:
 1. **Objective:** this section should contain 1-2 sentences that clearly indicate the scientific question of the study and its clinical (or other) importance.
 2. **Methods:** this section should contain sufficient information to be able to understand the experimental design, the analytical techniques and the statistics used in the study.
 3. **Results:** this section should contain objective data to answer the scientific question(s).
 4. **Conclusions:** this section should provide only conclusions of the study directly supported by the results, along with implications for clinical practice, avoiding speculation and overgeneralisation.
- Evidence level must be marked at each abstract. Description of evidence levels are available here ([down/Levels_of_Evidence.pdf](#)).

SUBMIT YOUR ABSTRACT ([HTTP://WWW.ASSZISZTENCIA.HU/CASM2/CASM.PHP?CONGRESS=175](http://www.asszisztencia.hu/casm2/casm.php?congress=175))

Late submission deadline: Sunday midnight - 11 December 2016 - Budapest time

Program

CME Credits Instructional Course

Instructional Course

The Instructional Course, chaired by **Grey Giddins (UK)** and **Gursel Leblebicioglu (Turkey)** is focusing on the availability, importance, usefulness of evidence based data in hand surgery. Covering the most important chapters of hand surgery the organizers will try to help the participants to have an overview of the evidence based data of some of the specific problems of each chapter. General knowledge on medical decision making, the importance of evidence based data and the use of these data in our every day activity will be presented in various ways. Lectures, invited speakers, debates, panel discussions will try to summarize the availability and sometimes the controversial importance of these data. First time in the FESSH congresses history best abstracts will be included in the scientific program like examples of our "every day scientific activity" providing feed back on the way we try to achieve evidence based data and once having them, how we, do we, use them?

The instructional course book will include more than 20 chapters and the best chapters will have the possibility of a live presentation in the plenary hall of the Congress. Some of the most interesting topics will be discussed together with the hand therapists in order to cover the burning questions of the complex treatment of these topics.
